

Uniseal 150

High Performance
Low Modulus
Polyurethane
Sealant

Description

One part low modulus polyurethane sealant specifically developed for sealing of contraction and expansion joints in civil engineering and building structures.

Standard Compliance

Conforms to EN 15651-1, BS 4254-1983, EN 14188: part 2

System Benefits

- One part therefore easy to apply
- Excellent resistance to weathering
- Permanently flexible
- Excellent acoustic ratings
- Suitable for vertical & horizontal use
- Resistant to sewage effluent
- 25% total joint movement

Applications

- Movement joints in concrete, masonry & blockwork
- Perimeter pointing around window & door frames
- Acoustic jointing
- Vertical joints in columns & perimeter walls
- Water treatment works
- Coastal defences, harbour walls & promenades
- Parapet walls on highway structures

Standard Colours

Grey

Black
