

# Product Summary

## About Us

Since being founded in 1966, Nufins has evolved into a manufacturer of specialist construction products with a key focus on civil engineering, construction, structural repair and coatings products which are used worldwide.

Our long established concreting chemicals range conforms to industry standards for application and performance. All products manufactured for use in the repair and protection of concrete structures are tested in accordance with BS EN 1504 and carry the CE marking. Our wide range of protective coatings and industrial flooring systems enable us to specify durable solutions for commercial and industrial projects.

The Nufins brand is synonymous with innovation, bespoke product development and high quality manufacturing under the ISO 9001 Quality Management Scheme, thus providing Nufins' customers with confidence in the quality and reliability of our specialist product range.

## Services

We are passionate about customer care, as we know it surrounds business success. Our primary goal is to ensure Nufins products are specifically matched to your project and that you receive expert technical support, before, during and after installation.

### CPD SEMINARS

Nufins offer a comprehensive range of Professional Development Seminars suitable for Engineers, Contractors and other civil engineering and construction individuals. In line with industry and professional body guidelines, these seminars can be delivered at your offices or at Nufins training centre.

### MANUFACTURING

Enjoying an excellent reputation within the industry for quality products, excellent value and exemplary customer service, Nufins' facility operates Zone 1 manufacturing, processing bitumen, epoxy, polyurethane and acrylic resins, together with aggregate and powder blending.

Through our fully accredited and internationally recognised Quality Management System, we provide full product traceability and constantly monitor our processes to ensure that we offer all customers the highest levels of service.

### LABORATORY & QUALITY CONTROL

Laboratory facilities have UKAS accredited test equipment, including compressive, tensile and flexural test equipment along with a temperature controlled chamber with a range of -20°C to 60°C.

Our regularly audited Quality Management Systems include QC testing procedures for every batch of product; this allows us to check product compliance with the suite of TDS, SDS and DoP and enables us to provide batch-specific Certificates of Conformity and Certificates of Analysis, which are available on request.

### TECHNICAL & SITE SUPPORT

Our Technical Team are available to answer your questions online or over the telephone and to support you with your project, by providing expert guidance and advice on site. With an unrivalled level of industry experience, stretching over 50 years, we will recommend and specify the correct product for your application.

Supporting you on site is what we do best, and for that reason we have maintained excellent relationships with our customers for many years. Whether you require a site visit to determine the most suitable Nufins product for your particular application or would like us to ensure that our products are being used correctly – we're here to help.

# Product Groups

**Group 1**  
Concreting  
Chemicals

A range of formwork varnish, release agents, curing compounds and surface retarders, providing excellent protection and high quality concrete finishes.

**Group 2**  
Concrete Repair &  
Technical Mortars

A range of high quality, polymer modified and resinous mortars, designed for undertaking Concrete Repair and Protection, in accordance with EN1504. Suitable for heavy duty industrial applications and repair of highway structures.

**Group 3**  
Concrete  
Protection

High performance anti-carbonation, waterproof, chemically resistant and decorative coatings for walls and soffits.

**Group 4**  
Structural Grouting  
& Anchoring

High performance, non-shrink cementitious and resinous Structural Grout for repair, bedding and anchoring. Includes a comprehensive range of polyester and epoxy grouts.

**Group 5**  
Bedding Mortars  
& Streetscape

High performance and rapid setting cementitious epoxy and polyester mortars and adhesives for industrial and highways applications.

**Group 6**  
Joint Sealants  
& Fillers

A range of joint sealants for use in building and civil engineering structures to accommodate structural and thermal movement.

**Group 7**  
Industrial  
Flooring

Hardwearing and heavy duty surface hardeners, dust proofers, sealers, coatings, screeds, toppings and resin flooring products for commercial and industrial applications.

**Group 8**  
High Friction  
Surfacing &  
Waterproof  
Coatings

MMA, PU and epoxy resin body-coats, designed to achieve anti-slip and waterproof surfaces with exceptional durability to carpark decks, footways, balconies and ramps. Suitable for wood, steel and concrete decks. Complimented by cold applied and rapid curing, linemarking paint.

**Group 9**  
Leak Sealing &  
Resin Injection

Nufins injection resins are optimally formulated to stop leaks, lift slabs, stabilise soils, fill voids and protect concrete structures.

**Group 10**  
Adhesives &  
Cleaning

Epoxy adhesives providing exceptional bond strengths and suitable for a variety of materials, including concrete, stone, metal, plastic and ceramic. Polyester fillers in a range of colours for wood, terrazzo and concrete surfaces. Cleaning agents for Nufins' resinous products.

**Group 11**  
Accessories

Spraying equipment, sealant guns, single use plastic cartridges etc.
